OBJECTIVE

I'm a dedicated data analyst with over a year of practical experience turning raw data into meaningful insights. My toolkit includes SQL, Power BI, Python, Excel, Alteryx, and Tableau, enabling me to streamline processes, enhance decision-making, and drive business growth. I'm eager to join a forward-thinking team where I can leverage my diverse skill set to uncover the stories behind the data and contribute to innovative, data-driven strategies.

EXPERIENCE

Aug 2023 - January 2025

NMD pvt ltd, Pune
Data Analyst

- Pellentesque at lectus in libero dapibus In my recent role as a Data Analyst in Sales at NMD Pvt. Ltd. in Pune since January 2023, I played a key role in driving business performance and enhancing operational efficiency. I amplified sales revenue by 20% in the first quarter through targeted, data-driven strategies and identified key performance indicators to improve sales approaches by 10%. By implementing a new CRM system, I enhanced data accuracy by 30%, while rigorous data cleaning, transformation, and analysis boosted overall data quality by 15%. I collaborated with cross-functional teams to design targeted campaigns that increased customer engagement by 12%, and my development of interactive Power BI dashboards reduced report preparation time by 25%, streamlining stakeholder decision-making. Additionally, my statistical analyses on historical data improved forecast accuracy by 18% and optimized workflow processes reduced turnaround time by 25%, further increasing team efficiency. Overall, my contributions significantly advanced the company's overall data-driven decision making.
